### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: Upon a complete review of the entire written record the instant application is in condition for allowance. The prior art cited by the Applicant and listed by the Examiner on the PTO-892 effectively set forth the state of the art pertaining to fiducial marks on a substrate for laser transfer in the manufacture of OLED devices. None of these references describe, teach or suggest the claimed method of producing image data for such a process. The prior art does not discuss responding to graphical representations and positions of the alignment marks to form coordinates to define the size and location of the emissive sites. The prior art does not show adjusting the coordinates after this step to adjust for errors known to be caused by the laser thermal transfer apparatus. Based on this, the instant application claims are allowable over the prior art and the application is being passed to Issue.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christopher G. Young whose telephone number is 571-272-1394. The examiner can normally be reached on Monday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mark Huff can be reached on 571-272-1385. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
